

Bernie (Themed Walker)

'The painting is inspired by my walks with GL Walking around Glasgow where I was thrilled with the squirrels and other wildlife.

It also shows the buildings and nature blended as one in the winter weather. I have not seen the deer or stag yet while out walking but I love the stories of nature moving back into the cities during lock down. They magically appeared in the painting so I'm delighted that it all came together to show how we can all weather the storm and find beauty and hope all around while walking in Glasgow.'
